

## Eco-Friendly Cleaning Made Simple

You can make your own products with items you may have at home: lemons, vinegar, olive oil and baking soda. But for a simple start, we suggest using Koh Cleaning Products.

Koh makes every day cleaning easier with plant-based, multi-purpose products that help reduce waste, clutter, and unnecessary chemicals.

### Why You'll Love Koh

- **One cleaner for most hard surfaces** – ideal for kitchens, bathrooms, glass, tiles, tables and more.
- **Plant-based and biodegradable** – tough on everyday dirt, kinder to your home and the environment.
- **Refillable bottles** – top up with concentrated refills to reduce single-use plastic.
- **Reusable microfibre cloths** – designed to lift grease, dust and fingerprints, then wash and use again.
- **Less clutter, better value** – replace multiple specialist cleaners with one versatile solution.

### New to Koh?

A Koh Starter Kit includes a reusable spray bottle, a concentrated cleaning solution and premium microfibre cloths, so you have everything you need to get started.

### Make the Switch

If you're looking for a simpler, more sustainable way to keep your home clean, Koh is an easy choice. With fewer products, less plastic and effective everyday cleaning, it's a smart choice for UK households.
